26. The TA showed strong interest in teaching the course.	17	11	5	1	0	0	0	5.59

Comments: Most committed TA I have had so far. Really eager and communicates concepts very simply./linlin knows everything about the course and is good at answering questions/Linlin is a great TA. She has nothing to work on/I loved Linlin/She was good with answering questions./Lin Lin is awesome. She is always willing to help students understand stuff and she is really approachable. Her office hours are always packed and that's because she is really great at helping students understand the homework. Lin Lin was really great to work with and I'm so glad I had her as my TA. She helped me out a ton./Helps with homework greatly./Linlin is the best TA I've ever had! She's extremely clear when it comes to explaining concepts, and she knows her stuff. She puts in effort to understand what the class is learning (unlike other TA's that have completely no idea what's going on) and even comes up with her own review sessions and materials. Very dedicated, very impressive. And again, Linlin will probably be the best TA you'll ever have./Linlin is an awesome TA. She is really dedicated and knows the material really well. Although she doesn't join us in class, she really makes it a point to know what prof taught in class. She is always prepared before office hours start and doesnt' get frustrated

with you at all! She got back to me about a question i had during lab session and tried to explain it better. However, she is soft at times and i think some people in class finds it difficult to hear her./She was good.
